

TP-LINK TD-8816 modem/router setup - Bridge Mode

This will help you to configure your modem/router in routed mode for the Montreal-DSL internet connection.

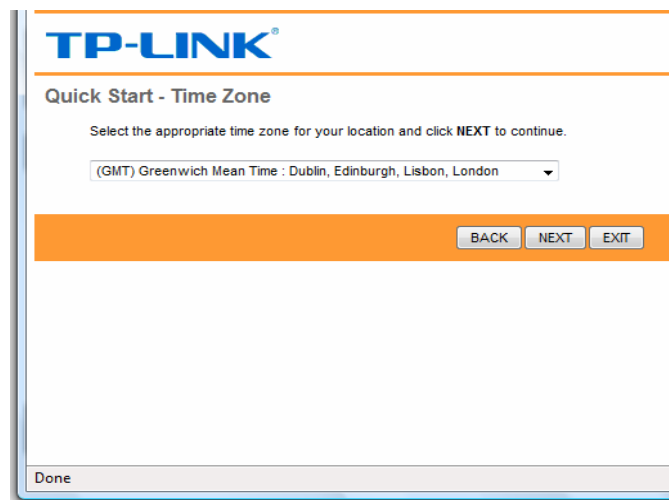

1. Open up your **Web Browser** and type in **192.168.1.1** in the address bar at the top and hit **Enter**. This will open up the TD-8816 home page. Username: admin, password: admin. Click **OK**

2. Please click **Quick start** and then **Run Wizard**:

3. Click **Next** on the next screen to select the time zone. Select your time zone and click **Next**

4. Select **Bridge Mode** and click Next

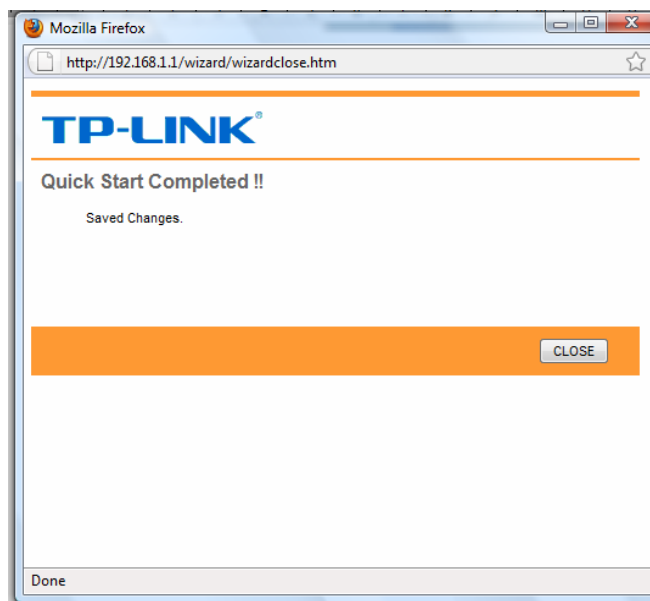

The screenshot shows the 'Quick Start - ISP Connection Type' page. It features the TP-LINK logo at the top. Below the logo, the title 'Quick Start - ISP Connection Type' is displayed. A sub-header reads: 'Select the Internet connection type to connect to your ISP. Click NEXT to continue.' There are four radio button options: 'Dynamic IP Address' (with description: 'Choose this option to obtain a IP address automatically from your ISP.'), 'Static IP Address' (with description: 'Choose this option to set static IP information provided to you by your ISP.'), 'PPPoE/PPPoA' (with description: 'Choose this option if your ISP uses PPPoE/PPPoA. (For most DSL users)'), and 'Bridge Mode' (with description: 'Choose this option if your ISP uses Bridge Mode.'). The 'Bridge Mode' option is selected. At the bottom right, there are three buttons: 'BACK', 'NEXT', and 'EXIT'.

5. Select the VPI/VCI settings **0/35** (for QC/ON) or **0/33** (for AB/BC) and then select it. Click Next.

The screenshot shows the 'Quick Start - Bridge Mode' page. It features the TP-LINK logo at the top. Below the logo, the title 'Quick Start - Bridge Mode' is displayed. A sub-header reads: 'Enter the bridge information provided to you by your ISP. Click NEXT to continue.' There are two input fields: 'VPI: 0 (0-255)' and 'VCI: 35 (1-65535)'. Below these is a dropdown menu for 'Connection Type' set to '1483 Bridged IP LLC'. At the bottom right, there are three buttons: 'BACK', 'NEXT', and 'EXIT'.

6. Click on NEXT and Next again to save changes.

The screenshot shows a Mozilla Firefox browser window. The address bar contains 'http://192.168.1.1/wizard/wizardclose.htm'. The page content includes the TP-LINK logo, the heading 'Quick Start Completed !!', and the text 'Saved Changes.'. At the bottom right, there is a 'CLOSE' button. The status bar at the bottom of the browser window shows 'Done'.

7. You are DONE! Click on CLOSE to finish

Enjoy high speed.
